NICHOLAS **POPOVIČ**

University Education

2025-2026	TU Dresden & ScaDS.AI - PhD Computer Science (defense date t.b.d.)
2021-2025	Karlsruhe Institute of Technology - PhD Computer Science (continued at TUD & ScaDS.AI)
2018-2021	Karlsruhe Institute of Technology - M.Sc. Computer Science
2013-2018	Karlsruhe Institute of Technology - B.Sc. Electrical Engineering and Information Technology

Peer-Reviewed Publications

2026 **Popovič**, Färber - "Tracing Relational Knowledge Recall in Large Language Models", **ACL 2026** **(Findings)**

2026 Salazar et al. - "Kaleidoscope: In-language Exams for Massively Multilingual Vision Evaluation", **ICLR 2026**

2025 **Popovič**, Färber - "Extractive Fact Decomposition for Interpretable Natural Language Inference in one Forward Pass", **EMNLP 2025**

2025 **Popovič**, Kangen, Schopf, Färber - "DocIE@XLLM25: In-Context Learning for Information Extraction using Fully Synthetic Demonstrations", **XLLM WS @ ACL 2025**

2024 **Popovič**, Färber - "Embedded Named Entity Recognition using Probing Classifiers", **EMNLP 2024**

2024 Rogulsky, **Popovič**, Färber - "The Effects of Hallucinations in Synthetic Training Data for Relation Extraction", **KBC-LM WS @ ISWC 2024**

2023 Milani et al. - "Towards Solving Fuzzy Tasks with Human Feedback: A Retrospective of the MineRL BASALT 2022 Competition", **Competitions Track @ NeurIPS'22**

2023 Färber, **Popovič** - "VOCAB-EXPANDER: A System for Creating Domain-Specific Vocabularies Based on Word Embeddings", **RANLP 2023 (demo)**

2022 **Popovič**, Färber - "Few-Shot Document-Level Relation Extraction", **NAACL 2022**

2022 **Popovič**, Laurito, Färber - "AIFB-WebScience at SemEval-2022 Task 12: Relation Extraction First - Using Relation Extraction to Identify Entities", **SemEval WS @ NAACL 2022**

2022 Färber, Braun, **Popovič**, Saier, Noullet - "Which Publications' Metadata Are in Which Bibliographic Databases? A System for Exploration", BIR 2022

2018 **Popovič**, Molinar, Stork - "From Data Points to Ampacity Forecasting", in: 2018 IEEE Fourth International Conference on Big Data Computing Service and Applications (BigDataService)

Grants, Awards, Other

2022 Award from **AIK e.V.** for best master's thesis
2022 Project grant from **SDIL** (project "KD4RE" in co-operation with Aleph Alpha GmbH)
2023 Project grant from **Vector Stiftung** (project "WG2Text" in co-operation with FZI)
2023 Project grant from **SDIL** (project "TruthfulLM" in co-operation with Aleph Alpha GmbH)

Project Involvement

2023-2024 "WG2Text: Wissensgraph-basierte Textgeneration" engl.: "Knowledge Graph-based Text Generation", Vector Stiftung
2023 "TruthfulLM: Knowledge-Guided Language Models for Factful Text Generation", BMBF
2022 "KD4RE: Knowledge Distillation for Relation Extraction", BMBF
2021-2023 "IIDI: Intelligente Informationsdienste für themenspezifische Webportale" engl.: "Intelligent Information Services for Domain-specific Webportals", BMBF

Invited Talks

2024 Keynote @ LLMs' secrets Workshop 2024 "Encoding or Decoding? NLU in the Age of Generative Language Models"
2024 Keynote @ SeReCo Workshop 2024 "KG-Augmented LLMs & LLM-Augmented KGs"

Teaching Involvement

2026 Graduate Course "Behind the Secrets of Large Language Models", exercise sessions
2025 Tutorial Session at "11th International Summer School on AI and Big Data", on "Introduction to LLMs" @ ScaDS.AI
2025 Graduate Course "Behind the Secrets of Large Language Models", lecture on NLP tasks @ TU Dresden
2024 Graduate Course "Knowledge Discovery", lectures on Advanced LLM topics @ KIT
2024 Practical seminar "Knowledge Discovery and Data Mining", student supervision @ KIT
2023 Practical seminar "ChatGPT", designed and taught a 2 week workshop/lab @ KIT
2023 Undergraduate course "Foundations of Computer Science 1", exercise sessions @ KIT
2022 Practical seminar "Knowledge Discovery and Data Mining", student supervision @ KIT
2022 Undergraduate course "Foundations of Computer Science 1", exercise sessions @ KIT

Student thesis supervision

2025 Philip M., "Uncertainty Estimation of Large Language Model Replies in Natural Sciences", masters's thesis (co-supervision)
2024 Philip H., "Using Named Entities as Semantic Tokens in Beam Search Decoding", masters's thesis
2024 Steven R., "Investigating the Effects of Hallucinations in Synthetic Training Data for Relation Extraction", bachelor's thesis
2024 Adrian O., "A Knowledge Injection Evaluation Framework for Improving Factual Accuracy in Open-ended Text Generation", master's thesis
2023 Florian R., "Continuous Text Representation Augmentation for Supervised Relation Extraction", master's thesis
2023 David B., "GPT-Vérité – a language model for truthful text generation", master's thesis
2023 Nuoyao Y., "Comparing Pair Enhancements for Few-Shot Document-Level Relation Extraction", bachelor's thesis
2022 Alexander R., "Document-Level Event Extraction", bachelor's thesis

Peer Reviewing

2026 Reviewer for ACL Rolling Review
2025 Reviewer for ACL Rolling Review
2025 Reviewer for ESWC2025
2024 Reviewer for ACL Rolling Review (every cycle since April 2024)
2024 Reviewer for SIGIR2024 & ECAI2024
2023 Reviewer for ISWC2023

Other Activites & Skills

2023-present I **designed, implemented and manage a small GPU cluster** (3 compute nodes, 18 GPUs) for our research group at KIT.
2023 I attended **Heidelberg Laureate Forum** as a Young Researcher. Since then I receive mentoring for early-career researchers through the Alumnode Network.
2022 I attended **Oxford Machine Learning Summer School** (August 7–14, 2022).
